A. An update concerning Lincoln Pipestone Rural Water was given by Brent Powers. He is expecting to sell water to LPRW by mid-summer 2018. The pipe is currently on hand and digging will begin once the crops are out of the fields. Councilman Prestholdt questioned whether or not the city was sure LPRW would still be purchasing water to which Powers replied yes. Powers stated LPRW has always been upfront with the city concerning the purchasing of water. The City of Dawson remains the short term water solution for LPRW. The city has no control over what happens with wells and aquifers in the county. The DNR will control this and act accordingly. Marilyn Hannasch asked how many years we expect to sell them water to which Mayor Tensen responded it is a five year contract. City Manager Schuelke-Sampson referred to the press release in the Dawson Sentinel that explains what LPRW is moving forward on.

The regular City Council Meeting was then closed and a public hearing was opened to discuss the USDA Rural Development Grant Application. Schuelke-Sampson said that the Police Department is applying for a 50% grant for the purchase of a new squad vehicle. This public hearing was a formality on applying for the grant. Hearing nothing about the grant application, Mayor Tensen then closed the public hearing. Maintenance Superintendent Powers inquired to Nelson if the garage on the property was going to be removed. Nelson replied at some point he would like to remove the garage. Nelson said his building would have 12' side walls with a peak roof height at 17'. Marilyn Hannasch asked what the height of a normal two story home is so she can have a comparison. Councilman Prestholdt asked what the roof would be made from to which Nelson replied steel. The whole project outside would be steel.
